To write a PL/SQL program to find sum of first n natural numbers.

Program:

```
declare
      n number;
      total number;
begin
      n := &n;
      total := 0;
      for i in 1..n
      loop
            total := total + i;
      end loop;
      dbms_output.put_line('The sum is: '||total);
end;
/
```

Output:

```
SQL> set serveroutput on;
SQL> /
Enter value for n: 5
old    5:          n := &n;
new    5:          n := 5;
The sum is: 15

PL/SQL procedure successfully completed.
